

## Excel Reporting gives an error 'Sorry, we couldn't open...' when trying to view a report

### Sage 200 Extra 2015

The error 'Sorry, we couldn't open 'https://SERVER@10444/Sage200SelfService/ExcelReporting/ViewReport is caused by 'Do not save encrypted pages to disk' being selected in Internet Explorer advanced security settings. Deselecting this will resolve the issue.
