

A smarter way to manage expenses

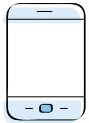

At webexpenses we make expense management efficient and cost-effective.

- Our software is intuitive, it significantly reduces the time employees spend submitting and approving expenses.
- We work with small businesses to large multi-national organisations across the globe.
- Access webexpenses on any iOS, Android or Windows device, or from a desktop.
- Report and track on all expenses spend with customisable reports.
- Easily integrate with finance and accounting software.

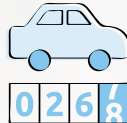

Our features

Mobile expenses app

Digital receipts

Mileage expense tracking

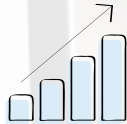

Credit cards

Petty cash management

Compliance

Reporting and tracking

Integration

Configuration and set-up

Security

The webexpenses mobile app

- Start building claims as soon as your trip starts.
- Fully manage your expenses with our mobile app - build, submit and approve claims on the go.
- Snap and upload receipts as you spend, and easily attach them to a claim.
- Monitor real-time spending as and when it occurs.
- Just like our desktop version, our mobile app ensures claims stay within policy.

Paper-based expenses could be costing your organisation...

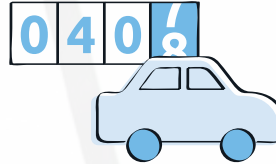

£22.07

to process an
expense claim

3

hours to process
an expense claim

40%

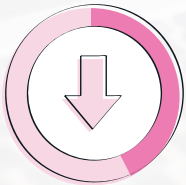

overclaim on
mileage

£29.40

average overclaim
