## 02. **Cloud Backup**

Back up your data automatically to Microsoft OneDrive for that extra peace of mind.

[Watch now >](#)

## 03. **Emailing invoices**

Save paper and postage costs and speed up your invoicing at the same time. You can email invoices and reports direct from Sage 50c. [Read more >](#)

## 04. **Drillable reports**

When looking at reports it's always useful to know exactly where the figures come from. Drillable reports give you that information in a click. [Read more >](#)

## 05. **Microsoft Office 365 Help Centre**

Sage 50c is linked to Microsoft Office 365. We've developed a Help centre to address common Office 365 queries. Why not bookmark it for when you need it? [Visit now >](#)

## 06. Schedule your backups

Taking regular backups is vital when protecting your data against corruption or computer failure. In Sage 50c Accounts you can schedule backups to run automatically and you don't even need to log other users out of the software!

Protect your data and save time with this fantastic feature. [Watch a demo now >](#)

## 07. Check your data

The check data option helps you to keep your data in good shape. Running it regularly means you can spot any issues early and tackle them quickly. We recommend running it regularly, especially when you create backups. [How to check your data >](#)

## 08. Shortcut keys

Accelerate your data entry by using the shortcut keys. In the batch entry windows, **F8** deletes a line while **F6** copies the field above. [Read more >](#)

## 09. Support and training

Online help and support at your fingertips. Just visit [www.sage.co.uk/help](http://www.sage.co.uk/help), choose your product and explore.

## 10. Quick Print

Print invoices with just one click, find out how to set up this time saving feature [here >](#)
