

Integrated.  
Improved.  
Unstoppable.  
This is my office.

What's new in Sage 50c? The new features explained.

### Productivity

GoCardless and Bank Feed Rules allow you to automate the little tasks so you can focus on the big ideas.

### Freedom

Microsoft Office 365 gives you the ability to do business wherever, whenever.

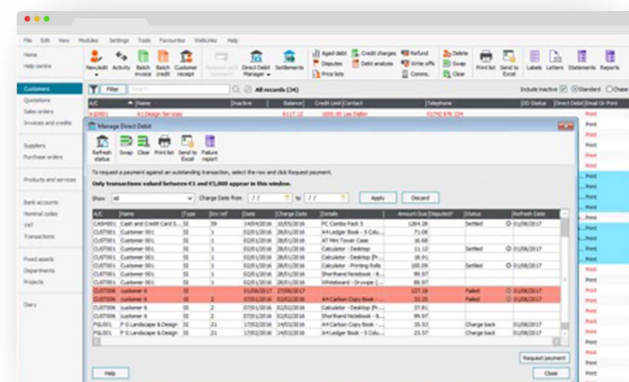

### Control

The ideas hub puts you in control of future improvements, making every business better.

# Explore what's new.

Sage has partnered with GoCardless, the UK's leading Direct Debit provider so you can automate your payments.

GoCardless for Sage ensures you get paid on time every time, **improving cash flow and reducing admin.**

## Bank Feeds Rules

Seamless integration with your bank account. This latest update to Improved Direct Bank Feeds helps you set up rules to automate transaction reconciliation, helping you reconcile your bank accounts more efficiently and reduce errors. Which means from now on you'll be spending less time on admin.

## Ideas Hub

Input direct from you, our customers. You have been suggesting and voting for the improvements you would most like to see, and we've included the top improvements our customers requested;

- Hide nominal and account records.
- Exclude suppliers paying by Direct Debit from payment runs.
- Increase field length.

## Microsoft Office 365

Get a FREE Microsoft Office 365 suite of software for one user with every Sage 50c subscription. Turbo-charge your productivity and work seamlessly between 50c and the tools you already know and use including Outlook, Excel and OneDrive. Microsoft Office 365 is simple to use, enables anytime, anywhere access and provides quick and easy collaboration across your entire organisation.

Contact your business partner to update and integrate today.
